

ACTION TESA PRESENTS

1ST TIME IN INDIA

Highly Scratch Resistant Prelaminated Board.

ABRAZE Prelaminated boards by Action Tesa are an affordable and quick solution to your home improvement needs. They're ready to use panels, and they can be installed in a matter of hours. 'ABRAZE' prelaminated boards are durable and made out of high-quality materials in **thicknesses of 7.50mm, 11mm, 12mm, 17mm, 18mm and 25mm**. These can be used in many furniture applications such as office and residential furniture, cafeteria tables etc.

Ordinary laminate boards have abrasion value of 150-350 revolutions, as a result commercial spaces which witness high wear and tear due to high traffic movement, the problem of fading of design, color and shine of the laminated surfaces arises. But Action Tesa's technological advancement has always taken the industry by storm; with 'ABRAZE' this pain area has been addressed. Micro scratch resistance and enhanced heat resistance along with high abrasion value of more than

1000 revolutions delays the pace of wear and tear and retains the fresh new look of your furniture and panels for longer period of time.

ABRAZE prelaminated boards are highly suitable in making of furniture items for any high public traffic areas such as **hospitals, health & spa institutions, educational institutions, malls, airports and hotels**. It also comes with added advantage of Antiviro Technology which kills 99.99% viruses, bacteria & microbes thus safeguards your interiors from the invisible enemies which can cause harm to your health.
